#### 2. Comments for the Current Month

Existing store sales were 101.9% compared to the same period last year, marking a 17th consecutive month of year-on-year growth.

Customer traffic at existing stores reached 103.1%, increasing year on year for the seventh consecutive month.

Despite continued inflation, sales of pet food, processed foods, kitchenware, and detergents performed well, supported by affordable pricing strategy.

Sales of air conditioners, driven by an early-purchase campaign, and bicycles promoted through the spring cycle fair were also strong, contributing to the overall increase in sales.
